AUDITORIUM SEATING

The Irwin Difference

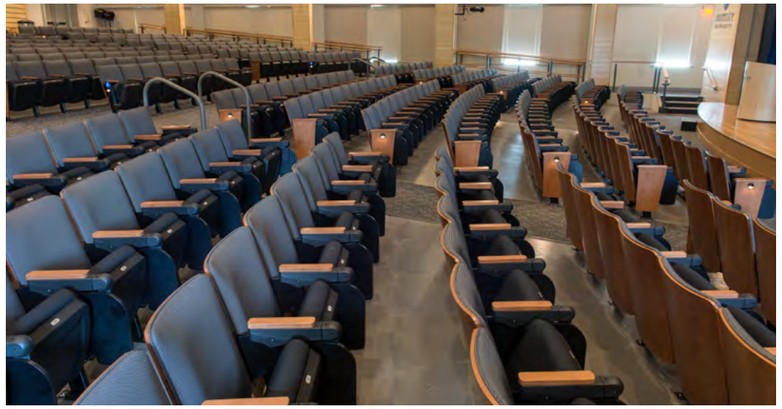

For over 100 years, Irwin Seating Company's focus has been on meeting our customers' need for comfortable, stylish and reliable auditorium / theater seating. We are proud of our heritage as an innovative, family-owned company who still manufactures products in the United States.

We understand that the unique design of each space means what worked well on one project may not work for another. So we start by asking questions, listening closely to the answers and then tailoring a solution for your specific needs. Our experience and expertise will assist you in every phase of your project; from initial chair selection and budget evaluation to layout / design through chair installation and beyond.

We recognize the importance of stewardship and understand seating must be reliable, easy to maintain and comfortable for years to come. Our chairs embody this understanding with quiet, comfortable components that are virtually maintenance-free, the use of engineered, impact resistant polymers, heavy gauge steel, and fabrics that pass the industry's most stringent tests.

Our service is as strong and reliable as our seating. Every person at Irwin Seating Company is focused on meeting customer needs at every stage of the project. Finally, with our Midwest manufacturing plants, we can easily provide parts and restoration services to make sure everything stays functional for as long as your chairs are in use.

The Irwin Difference

Every facility is unique in design and appearance, so we design our products in a modular fashion to put choice into your hands. We manufacture over 40 different backs, eight different seats and dozens of aisle panels and accessories. We've included our many popular components here, but others can be found at www.irwinseating.com.

No. 12 Cast Iron Platform
- Cast iron standards
- Class 30 grey iron
- Floor or riser mounting

Trim Area for Gate Fold

Accessories & Options

It's often said details are what distinguish one project from another, so we offer a wide array of accessories designed specifically to help add those final touches of function, comfort and beauty. Availability varies by chair platform, please visit irwinseating.com or consult with your Irwin Seating Company representative for specifics.

The flexibility of the No. 4 chair platform extends to its accessories and none illustrate this better than our self-storing tablet arm assembly. Available in four sizes, this tablet arm features a built-in, anti-panic mechanism for quick, easy storage under the armrest and a unique feature that allows the user to move the tablet in and out and place it into a position that is comfortable for them. While these features are nice, they mean nothing if the assembly is not durable. Based on our testing (and hundreds of installations), we know of no other self-storing writing tablet as strong as this one.

University of Wisconsin – Madison, Wisconsin

Stellar

Oregon State University - Corvallis, Oregon

220.220.560.220 Stellar

- No. 220 Stellar backs with steel inner panel and polymer rear panel
- No. 220 seat with steel foundation and cast iron seat pivots
- No. 560 laminate surfaced aisle end panel
- No. 220 cast iron chair platform with polymer armrests and large self storing writing tablets

The No. 220 Stellar back is constructed with a steel inner panel formed with an ergonomic, compound curve for exceptional comfort and durability. The Stellar seat features serpentine springs and a variable thickness cushion for a superior ride. Stellar is available with its own components and accessories - to view all options for Stellar please visit irwinseating.com or talk with your authorized representative.

216.220.280.220 Stellar

- No. 216 Stellar backs with veneer surfaced rear panel attached with exposed tamper-resistant hardware
- No. 220 seat with steel foundation and cast iron seat pivots
- No. 280 solid hardwood aisle end panel
- No. 220 cast iron chair platform with solid hardwood armrests

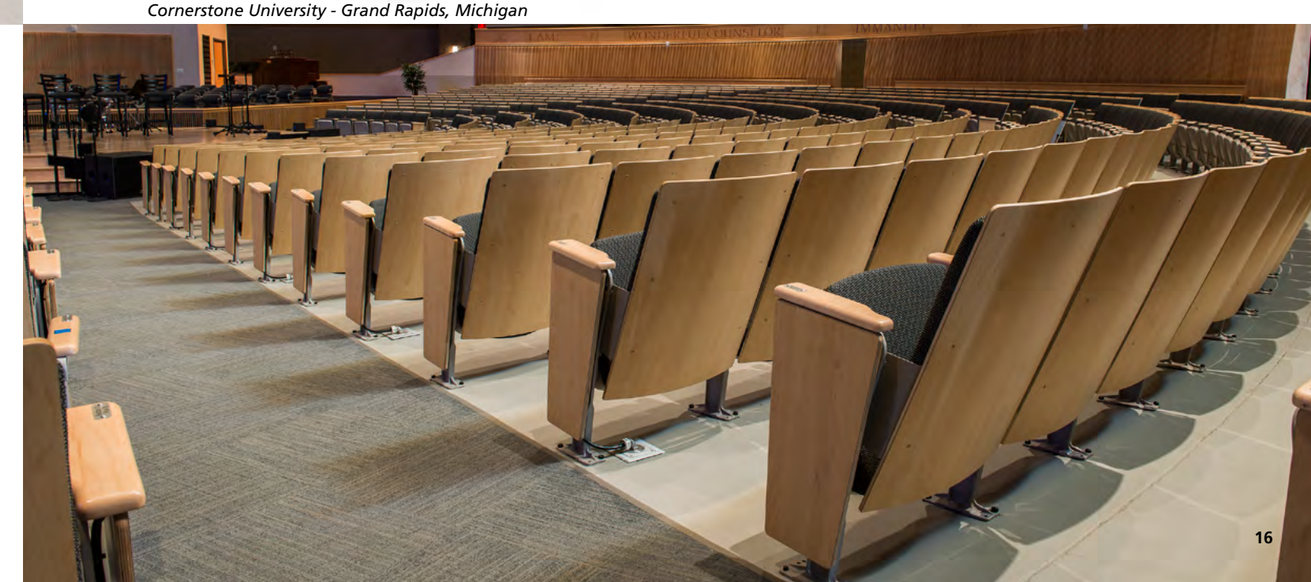

220.220.119.220 Stellar

- No. 220 Stellar backs with steel inner panel and polymer rear panel
- No. 220 seat with steel foundation and cast iron seat pivots
- No. 119 cast iron aisle end panel
- No. 220 cast iron chair platform with solid hardwood armrests

Cornerstone University - Grand Rapids, Michigan

Meteor

Greece Central Performing Arts Center - Greece, New York

8.12.10.4 Meteor

- No. 8 laminate surfaced Meteor backs
- No. 12 seat with ergonomic substrate
- No. 10 enclosed aisle panel with laminate surfaced insert panel
- No. 4 chair platform with laminate surfaced armrests and self-storing writing tablets

Rear panels for the Meteor backs are attached with exposed, tamper-resistant fasteners. Rear panels can be surfaced with wood veneer or laminate and are provided with a decorative welt around the perimeter of the back. Nominal back height for Meteor is 32" above a level floor. For back construction with concealed fasteners specify the No. 6 Century.

Bentley University - Boston, Massachusetts

8.12.56.4 Meteor

- No. 8 veneer surfaced Meteor backs
- No. 12 seat with ergonomic substrate
- No. 56 veneer surfaced aisle panel with concealed LED aisle lights and 2" round row letter plate
- No. 4 chair platform with solid maple armrests

Saturn

American Canyon High School - American Canyon, California

22.12.86.4 Saturn

- No. 22 veneer surfaced Saturn backs
- No. 12 seat with ergonomic substrate
- No. 86 Keystone veneer surfaced aisle end panel
- No. 4 chair platform with solid maple armrests, row letter and seat number plates

The No. 22 Saturn back is constructed like the Meteor but features a rounded top edge. Concealed fastener construction is available by specifying the No. 17 Davies. Meteor, Saturn, Century and Davies are available with most seats, aisle panels and accessories. Explore your options at irwinseating.com or talk to your authorized Irwin Seating Company representative.

22.12.00.4 Saturn

- No. 22 laminate surfaced Saturn backs
- No. 12 seat with ergonomic substrate
- No. 00 open aisle standard with LED aisle lights and 2" round row letter plate
- No. 4 chair platform with comfort-curved polymer armrests and foot shrouds

River Bluff High School - Lexington, South Carolina

Grand Rapids

Central Arizona College, Pence Center - Coolidge, Arizona

The Grand Rapids back is versatile in its ability to work for a contemporary setting or a historic venue when paired with a cast end standard. The No. 10 Grand Rapids features an attractive wood reveal on the front of the back and is constructed with concealed fasteners for a clean rear panel.

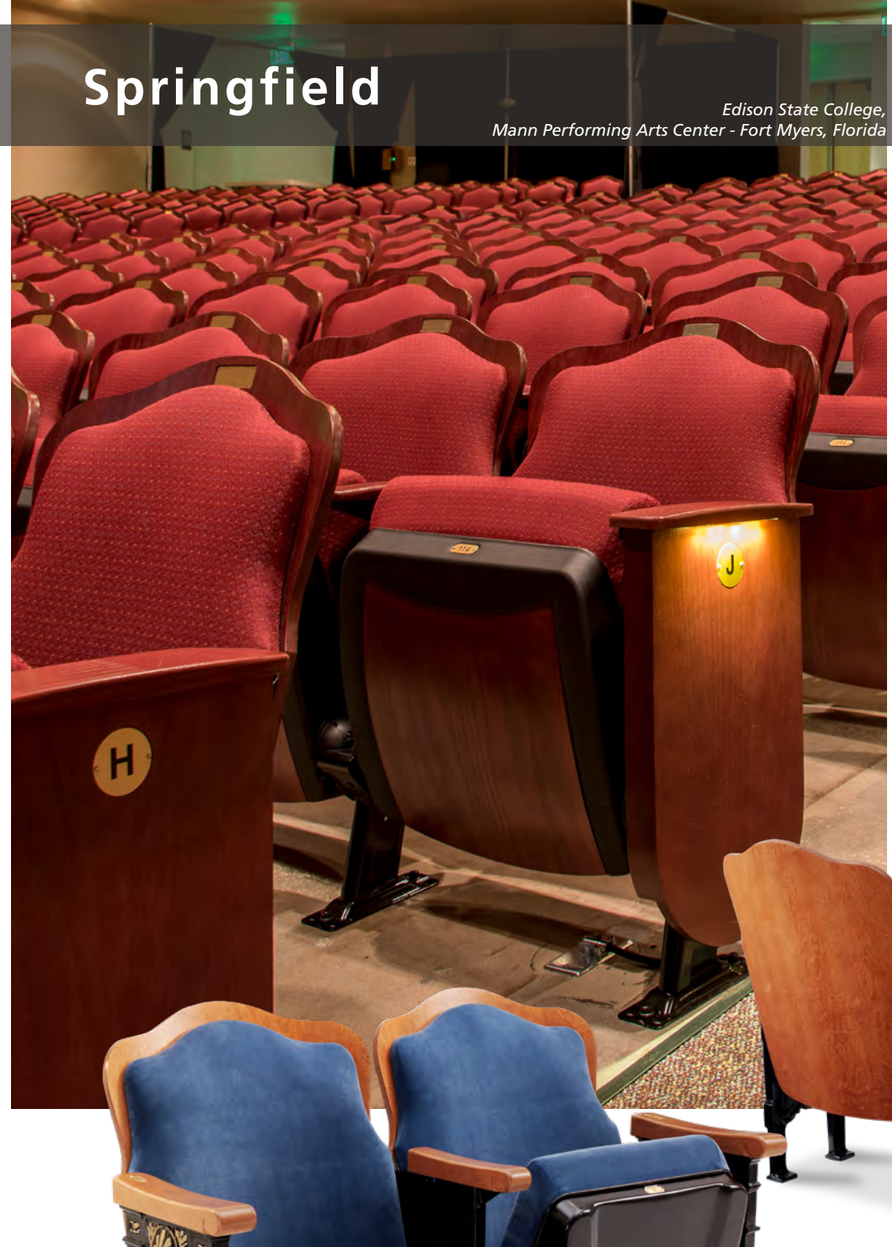

10.12.60.4 Grand Rapids

- No. 10 veneer surfaced Grand Rapids backs
- No. 12 seat with serpentine spring substrate and veneer surfaced insert panel
- No. 60 veneer surfaced aisle panel with block front and 2" round row letter plate
- No. 4 chair platform with solid red oak armrests and foot shrouds

Springfield

Edison State College,
Mann Performing Arts Center - Fort Myers, Florida

The No. 11 Springfield back has an elegant Victorian design that makes it ideal for historic settings – especially when paired with a cast end and scrolled armrests. Like the Grand Rapids back, Springfield is constructed with a 9-ply veneer surfaced panel attached with concealed fasteners.

11.6.155.8 Springfield

- No. 11 veneer surfaced Springfield backs
- No. 6 steel seat embossed for seat number plates
- No. 155 period style cast end with hand decorated highlights
- No. 8 chair platform with scrolled hardwood arms

Allegro

Beachwood High School - Beachwood, Ohio

The Allegro back is formed with a subtle radius top and a 1" reveal to accentuate that feature. The back is constructed with a 9-ply hardwood rear panel attached without any exposed fasteners for a smooth, clean appearance. Allegro has a nominal 30" standard back height or an optional 35" height.

27.12.74.4 Allegro

- No. 27 veneer surfaced Allegro backs
- No. 12 seat with serpentine spring substrate and veneer surfaced decorator panel
- No. 74 veneer surfaced aisle panel with block front and 2" round row letter plates
- No. 4 chair platform with solid comfort-curved hardwood armrests

Andante

Indiana University South Bend
Louise E. Addicott & Yatish J. Joshi Performance Hall
South Bend, Indiana

The No. 37 Andante is constructed exactly like the Allegro but without the front facing reveal. Like Allegro, Andante can be configured with many different seats, aisle panels and options to create a personalized chair that works well in the space it's installed in.

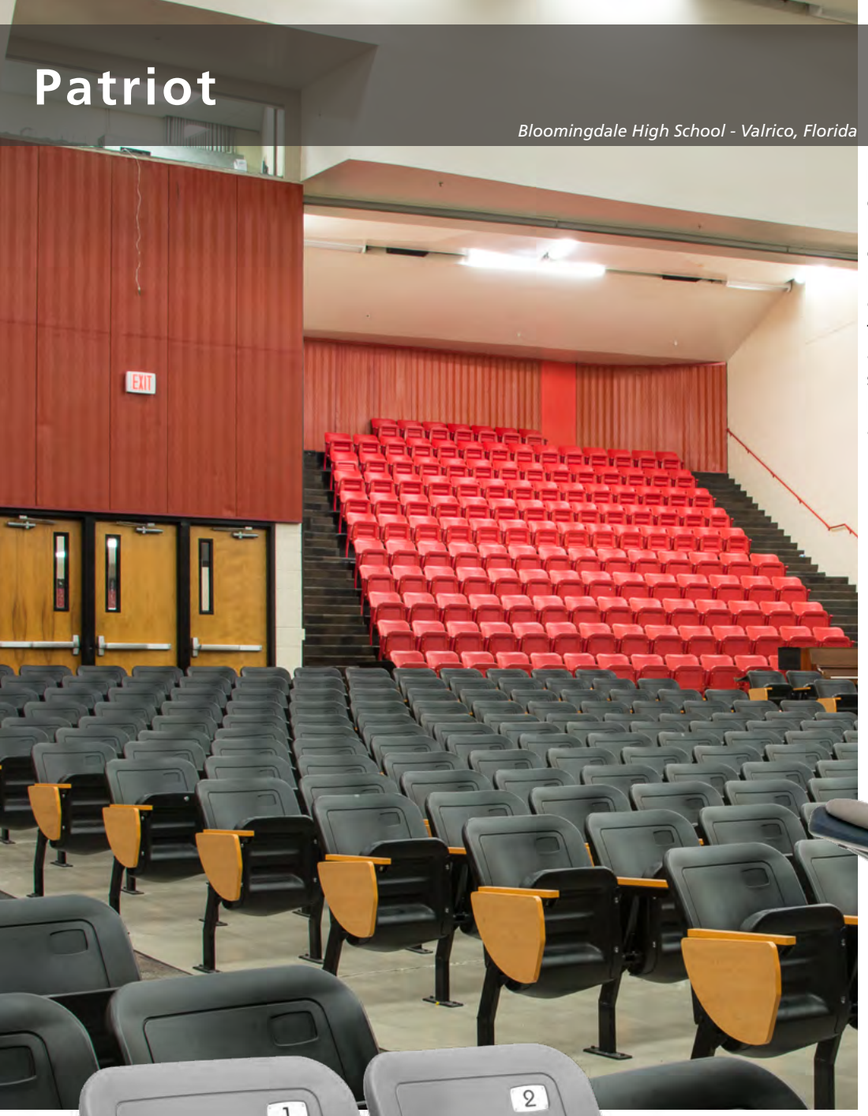

37.12.17.4 Andante

- No. 27 veneer surfaced Andante backs
- No. 12 seat with serpentine spring substrate and upholstered insert panel
- No. 17 veneer surfaced aisle panel with block front and 2" round row letter plate
- No. 4 chair platform with comfort-curved solid hardwood armrests and foot shrouds

Patriot

Bloomingdale High School - Valrico, Florida

Patriot chairs feature ergonomically designed molded polymer backs and seats for exceptional comfort and outstanding durability. Patriot is available with an open aisle end standard or with the No. 36 aisle panel. Patriot is available with a full line of accessories including writing tablets, padded backs and seats and four armrest options.

31.53.00.30 Patriot

- No. 31 padded Patriot backs
- No. 53 padded seat
- No. 00 open aisle standard
- No. 30 chair platform with molded polymer armrests

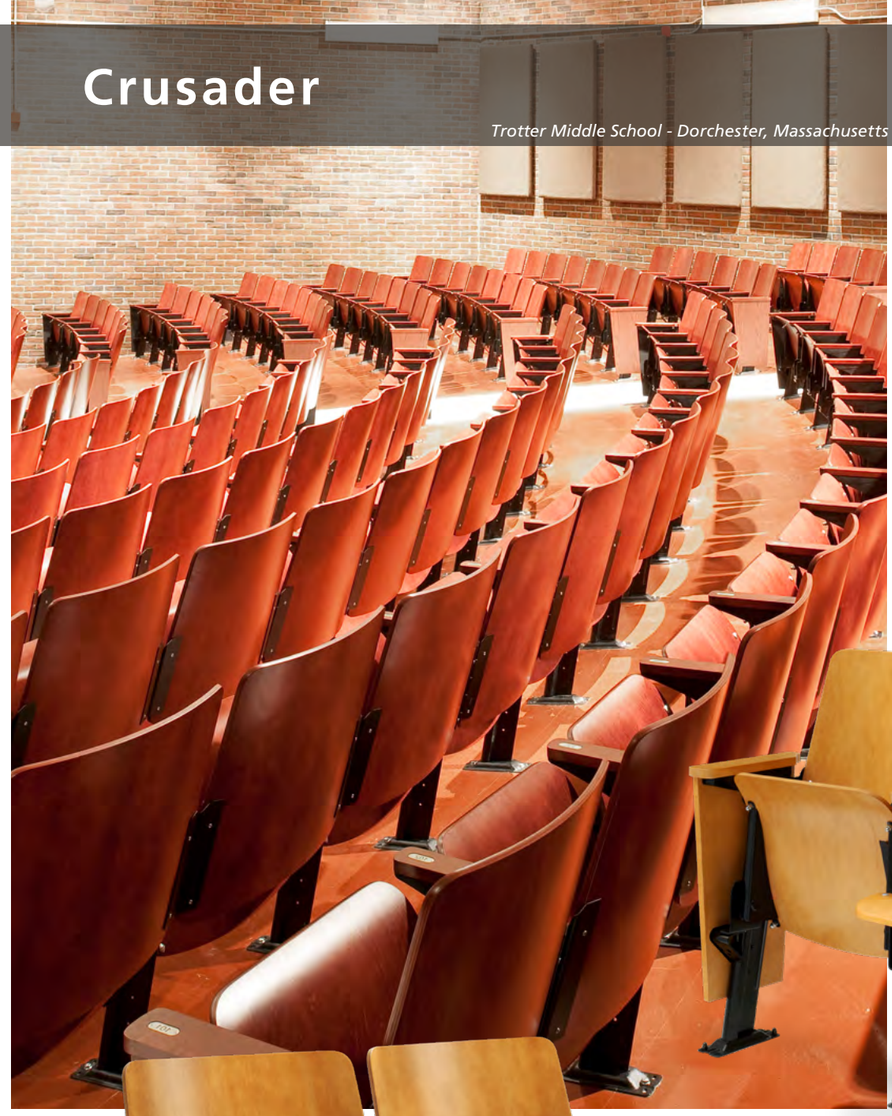

30.52.36.30 Patriot

- No. 30 Patriot backs
- No. 52 Patriot seats
- No. 36 laminate surfaced aisle panel
- No. 30 chair platform with laminate surfaced armrests and Tru-Fold writing tablets

Crusader

Trotter Middle School - Dorchester, Massachusetts

The Crusader is a nostalgic design manufactured with modern technology to ensure durability. Backs and seats are formed from seven, cross banded hardwood plies and surfaced with grade A face veneer. Crusader backs can be paired with most seat components, writing tablets and all aisle end panels.

1.14.86.4 Crusader

- No. 1 Crusader back
- No. 14 self-rising seat
- No. 86 veneer surfaced aisle end panel
- No. 4 chair platform with solid maple armrests

1.12.60.4 Crusader

- No. 1 Crusader back with an extended kick plate
- No. 12 upholstered, self-rising seat
- No. 60 veneer surfaced aisle end panel
- No. 4 chair platform with a 100 square inch writing tablet and laminate surfaced armrests

Dimension

Texas A&M University - College Station, Texas

No. 250 Dimension

- Fully upholstered articulating back
- Fully upholstered self-rising seat
- Rail mounted cast iron arm support with solid maple armrests
- Floor mount cast iron stanchions and steel horizontal beam

The unique clam-shell fold of the back and seat, coupled with a slim profile design help create Dimension's tight envelope, making it an ideal solution for facilities looking to maximize capacity and comfort. Dimension is available with a wide variety of options including a non-upholstered version, ADA arm and self-storing writing tablets.

No. 240 Dimension

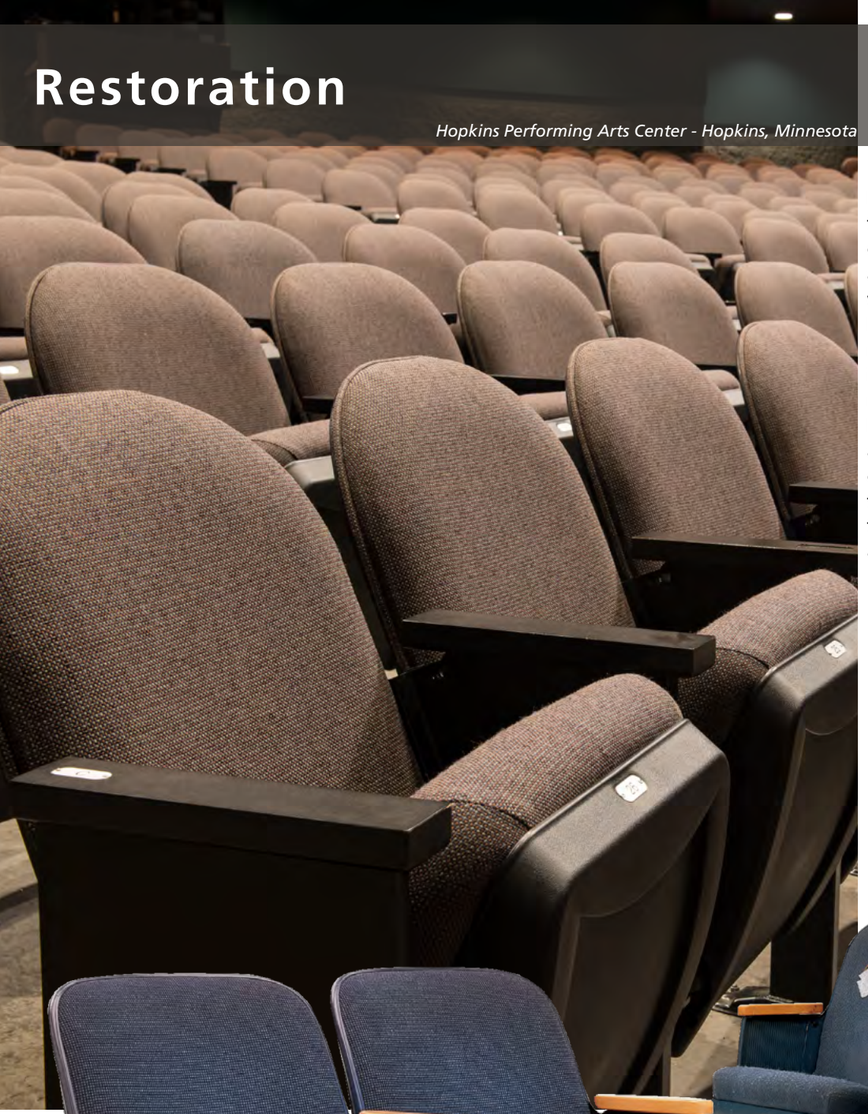

- Self-articulating, double-wall polymer back with upholstered insert pad
- Double-wall polymer self-rising seat with upholstered pad
- Rail mounted cast iron arm support with solid maple armrests and large self-storing writing tablets (above)
- Blow molded armrests (below)
- Floor mount cast iron stanchions and steel horizontal beam

Restoration

Hopkins Performing Arts Center - Hopkins, Minnesota

Restoration is an excellent way to maintain the original design of an auditorium or theatre and is often the best solution when compliance with modern building codes is a concern. Chair restoration is also an outstanding way to practice environmental stewardship. Often, the best solution is a mix of new and original components. With over 100 years of experience, the Irwin Difference can help to bridge the gap between new and old.

AMSECO 16M

- All components not suitable for restoration were replaced from stock
- All steel / cast iron components were stripped, pre-finished and powder coated
- Seat-lift mechanisms were restored to proper working condition
- Fabric covers and foam were replaced to meet current safety codes
- Wood armrests were stripped, sanded and stained
- Number and letter tags were replaced

Specialized Seating

Carbon County Justice Court - Price, Utah

With more than a century of experience supplying seating around the world, there isn't a lot we haven't seen before. From oil rigs in the Gulf of Mexico to your local movie theatre to court rooms and planetariums, no other company has more experience in fixed seating than we do. We pride ourselves in helping customers with well-engineered products for their unique situation.

51.12.66.JB Marquee

Jury base chairs are available with most backs and aisle panels. These swivel bases feature 180° rotation and memory return.

71.12.90.4 Planetarium Signature

Planetarium chairs are provided with a vinyl headrest and reclined back pitches.

Telescopic Seating

Northwest High School - Jackson Michigan

Integra Seating:

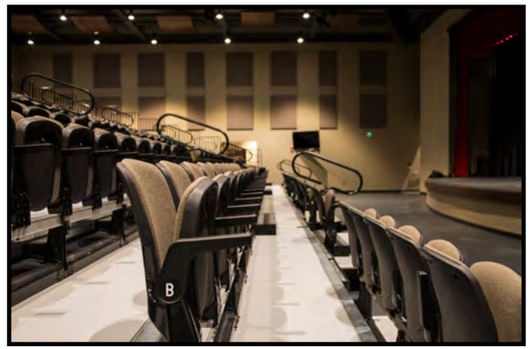

The use of retractable systems in multi-purpose rooms continues to grow in popularity. Integra has the appearance, comfort and durability required in performance or multi-use spaces. The Integra beam mount system sets a new standard for functionality with the choice of manual or semi-automatic chair operation — both options reduce operation times and require minimal effort. For safety and ease of cleaning, the chair fold-down mechanisms are supplied with an attractive and protective dust / debris cover. To ensure durability, Integra has been engineered to meet all standard industry requirements for spectator seating as well as our own, more rigorous internal testing.

VersaTract is the most VERSAtile reTRACTable seating system available. This innovative telescoping seating system provides an incredibly stable walking surface and unmatched performance and reliability. We're so confident in the design, materials and construction of VersaTract it's backed by the industry's best warranty - 10 YEARS!

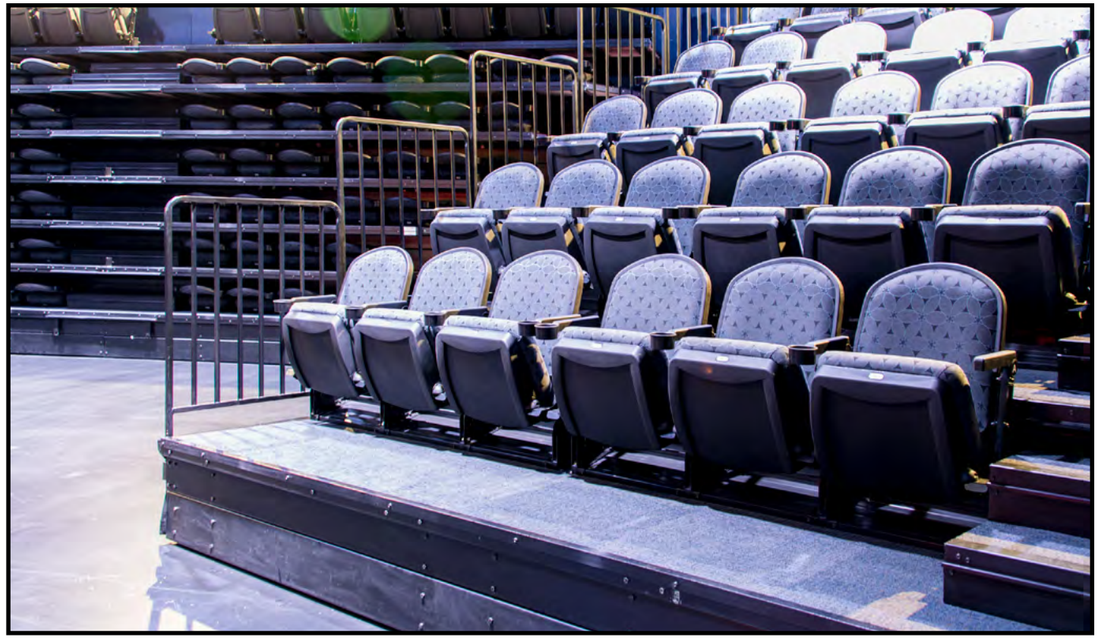

Talk with your Irwin Seating representative today and find out if Integra and VersaTract is the right choice for your facility.

Arizona Ballet - Phoenix, Arizona

Spring Hill High School - Chapin, South Carolina

University of Wisconsin, Frederick March Play Circle - Madison, Wisconsin

Prestige Seating:

Prestige is the best of two worlds; the comfort of auditorium-style backs and seats on our VersaTract telescopic system. Prestige is a great choice for facilities needing high-end seating in a flexible space. Prestige is available with our most popular backs and seats and provides the same level of comfort and stability you've come to expect from Irwin Seating Company.

To accommodate row rise conditions, Prestige is available with either a nose-mount or forward-fold mechanism. Operation of the Prestige Series is made quick and simple with unique spring assist mechanisms to aid in the storage and deployment of the chairs. This innovative design greatly reduces setup and take-down times, while increasing the overall customer value.

The VersaTract system provides an incredibly stable walking surface for patrons and a easy, reliable operation for the staff having to setup or store the system for different events.
