The playing area of a basketball court in the UK is **91.8ft (28m)** in length and **49.21ft (15m)** wide. Indoor courts should be **22.96ft (7m)** in height.

Court aspect	Dimensions
Length (International)	28m
Width (International)	15m
Height (International)	7m
Length (other levels)	26-28m
Width (other levels)	14-15m
Height (other levels)	7m
Playing area	419.96m²
Playing area (including run-offs and sidelines)	677.30m²

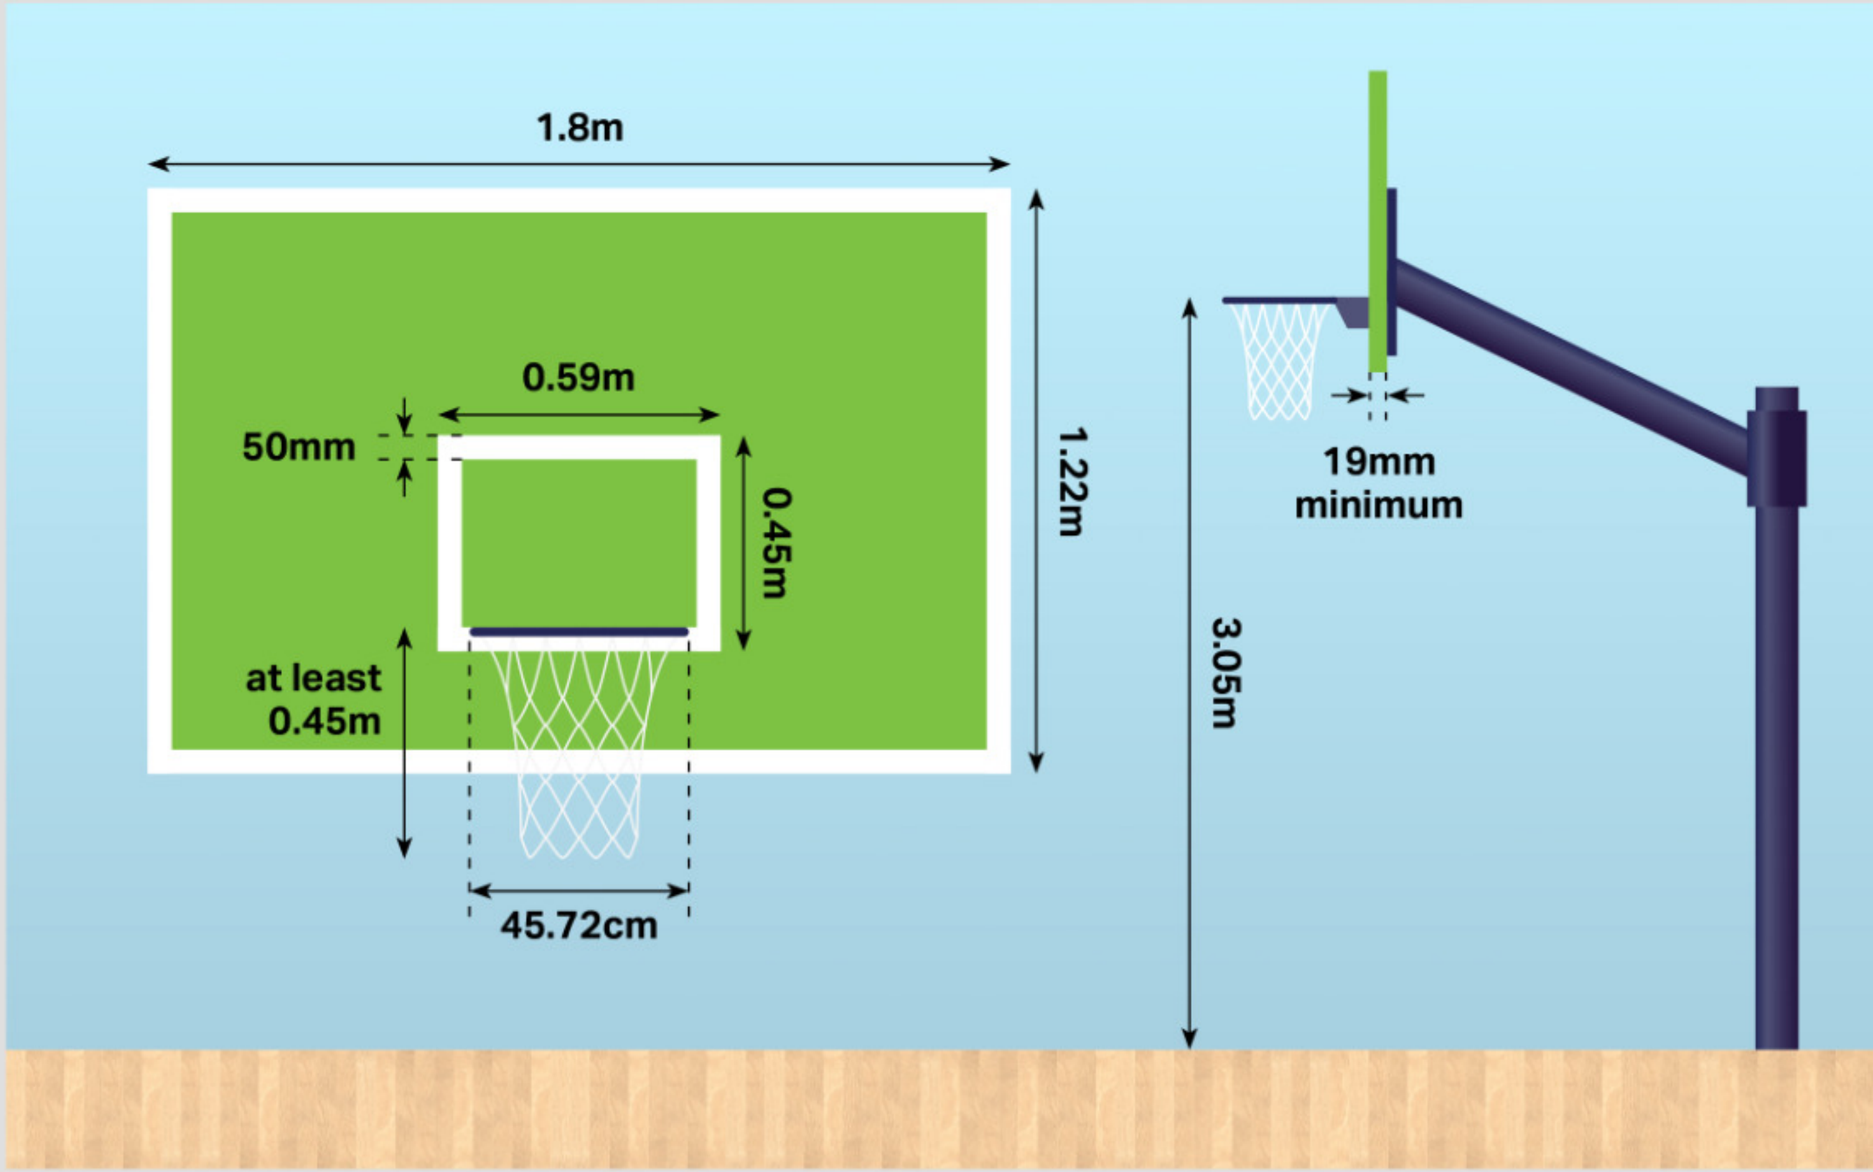

Basketball Backboad and Goal/Hoop Dimensions

Backboard dimensions

Backboard dimensions are **1.8m x 1.22m**, with a minimum thickness of **19mm**. Backboards can be made of either timber or transparent material and must be fitted with padding at all levels above U16. Backboard line markings should be **50mm** in width and either black or white, depending on the material of the board. The inner rectangle should measure **0.45m x 0.59m**.

Goal/hoop dimensions

The basketball goal (also known as a ring or hoop) is typically **18 inches (45.72cm)** in diameter and must be positioned **3.05m** from the floor. Nets are typically white and suspended from the ring. They should be no shorter than **45cm**.

ACRYLIC

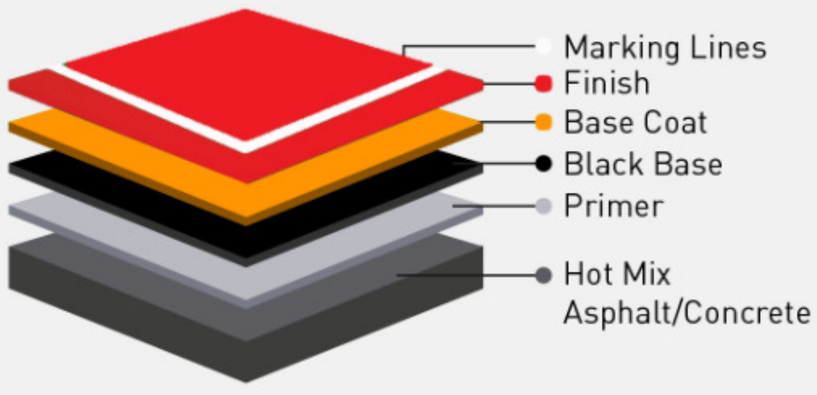

PRODUCT DESCRIPTION

Designed to deliver excellent sporting performance, the Acrylic flooring system comes in two versions: Standard and Comfort.

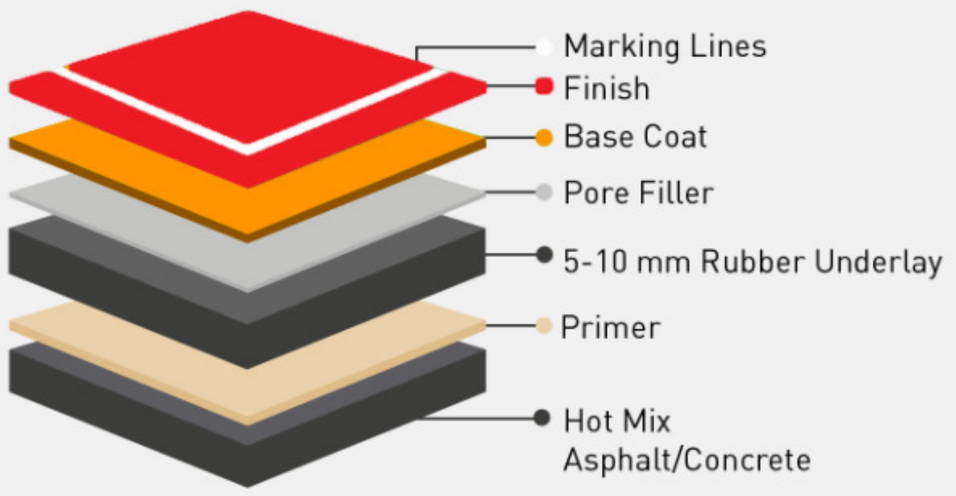

LAYERING

ACRYLIC STANDARD

ACRYLIC COMFORT

DIMENSION & COLOR

Available in various dimensions, designs & colors as per client requirement.

INDUSTRY APPLICATIONS

- Sports Courts
- Multi-sport Arenas

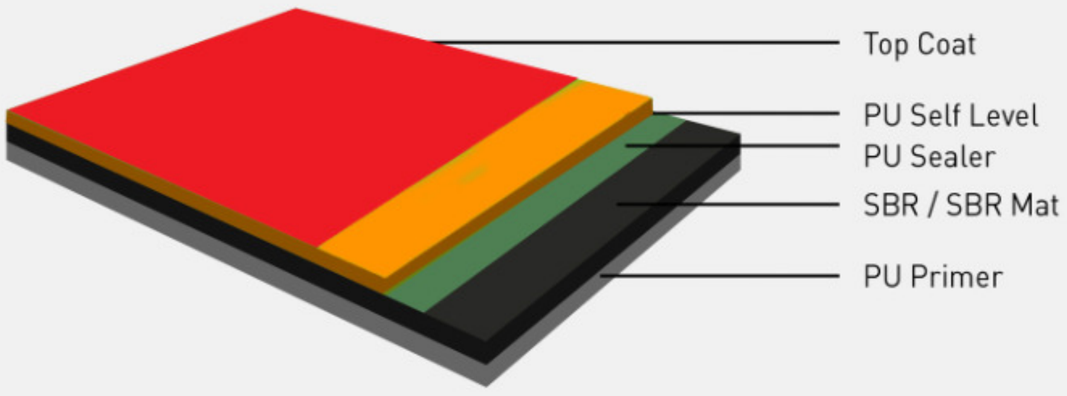

POLYURETHANE

PRODUCT DESCRIPTION

Polyurethane Flooring has a specialized UV coating and more dimensional stability due to an elastomer layer. It is constructed on site and is extremely customizable.

LAYERING

DIMENSION & COLOR

Available in various dimensions and colors as per client requirement.

INDUSTRY APPLICATIONS

- High-end Gym
- Horse Stable
- Animal Farm
- Jogging Track
- Running Track
- Cycling Track
