FOOD PROCESSING PLANTS EPOXY

We provides a range of epoxy floor finishing systems for commercial kitchens which are decorative and functional. Slip Resistant materials can be incorporated within the Commercial Kitchen Epoxy for a safer floor installation in accordance with the Australian Standard SlipRes ratings. A Fast Cure option is the perfect solution to a busy commercial environment allowing for a fast back to service floor installation.

The products can be used for Prior to Coat installations such as coving, screeding and surface preparations. Commercial Kitchen Epoxy floors are available in a Tinted Epoxy, Epoxy Flake or Metallic Marble Finish also with a slip resistant option. Flexi Mortar Epoxy can be used to fill the cracks, grooves and existing control joints.

Manufactured by SHIMICOAT, the products are odourless, self-levelling, easy to apply and engineered to be ideally suited to Australian conditions.
