WATER-BASED EPOXY GARAGE FLOOR COATING SYSTEM

Durable gloss color that stands up to daily life in the garage.

Extended application time
for an even finish with no lap marks.

Resists peeling
for lasting beauty and protection.

Stops hot tire pickup
and keeps surface looking new longer.

Fights oil and chemical stains
to keep color and finish like new.

Great for basements, laundry rooms, storage areas, man caves, warehouse and commercial floors too.

EVERY STEP LEADS TO SUCCESS.

1

Start strong with the right prep.

First, remove all debris, dirt and dust from the floor's surface. Then scrub the floor with **H&C® ConcreteReady® Degreaser**, rinsing and drying completely.

Etching is an essential step.

Etching nonporous concrete with **H&C ConcreteReady Etching Solution** ensures proper adhesion and even finish of the coating.

2

Mix.

Mix **Shield-Crete® Epoxy** according to product application directions.

3

Apply.

Trim the edges of your garage using a synthetic Purdy® paintbrush. Apply **Shield-Crete Epoxy Coating** in 4'x4' sections with a Purdy 9" WhiteDove™ 3/8" nap roller. Our longer pot time means you don't have to watch the clock as you apply.

4

Create a beautiful custom look.

If desired, broadcast **H&C Shield-Crete Deco-Flakes** on the freshly coated floor.

5

Apply clear coat.

Finish with **H&C Shield-Crete Epoxy Clear Coat** for increased durability and protection. Clear coat is required when Deco-Flakes are used.

Start by applying
BASE COLOR

Shield-Crete®

WATER-BASED EPOXY

2-part epoxy penetrates deeply into the concrete, creating a hard, durable surface that resists peeling and hot tire pickup for long-lasting beauty.

One kit covers up to 250 sq. ft or a 1-car garage.

Tintable to 1,000+ Sherwin-Williams colors

KIT CONTENTS: Part A Epoxy, Part B Hardener, Cleaner Degreaser, Stir Stick, Instruction Sheet

Add a unique
DECORATIVE FINISH

DECO-FLAKES

Deco-Flakes are vinyl paint chips that provide a unique, decorative finish similar to granite or terrazzo.

They also help hide imperfections in the concrete surface and depending on the density of the flake application, create custom flake patterns.

Available in four versatile blends.

Blue Chip Creek

Salt & Pepper

Earthy Mosaic

Pebble Beach

Finish with a
GLOSS CLEAR COAT

EPOXY CLEAR COAT

This 2-part clear epoxy adds extra protection and resists common stains so your new garage floor retains its showroom finish. If you'd like extra traction, use the slip-resistant additive. Also, if using Shield-Crete Deco-Flakes, remember after broadcasting them on a freshly coated floor, you must finish with a clear coat to secure them.

One kit covers up to 250 sq. ft or a 1-car garage.

Gloss finish for added shine

KIT CONTENTS: Part A Epoxy, Part B Hardener, Slip-Resistant Additive, Stir Stick and Instruction Sheet
