SPORTS EQUIPMENT

we apply years of experience and acquired expertise to the design and development of the best equipment for sport.

team of engineers and designers know that good-quality equipment is essential for the viability of every sports facility: that's the reason all our products are designed and manufactured in our own factories, where we can monitor production processes from start to finish.

BLEACHERS

Outdoor modular bleacher

Developed by designed and manufactured in compliance with European standard UNE EN 13200-6 and other goal equipment standards. Mondo's outdoor modular bleacher is a modular system of frames, feet, seats, etc. arranged in a tiered configuration. The resulting assembly is compact and robust, and as safe as a permanent grandstand.

The dimensions of the bleacher can be adjusted to meet the characteristics of the location and the needs of the client - there's a configuration suited to every requirement.

Folding outdoor bleacher

Mondo's folding bleacher has three tiers and wheels at the back. The structure is folded by raising the front to tier to collapse the bleacher.

Once it's in a fully vertical position, the bleacher can be wheeled away.

To unfold the bleacher, proceed in the reverse sequence: pull the front tier outwards until the bleacher is resting on its feet and in a fully horizontal position.

SEATS

designs and manufactures seating for spectators and players. Our and Venelli Seating ranges meet all the different requirements of our clients, and come in one-piece and tip-up versions. also offers special solutions for modular and portable bleachers. We put all our experience into designing the right product for each project.

STRONGER

- Offers the strength and performance of steel
- Sets up in 5 minutes or less
- Easy net-height adjustment with the Sports Imports Pin-Stop System
- Clear markings for Men's, Women's and Juniors' - additional holes for training purposes

We developed the SI-1, our best-selling pole, to provide customers with a safer net system that offers the strength, performance and quality they can only get from Sports Imports - a pole that can safely and easily be set up by a middle schooler and withstand the power and performance of the NCAA Championships. The proprietary All Carbon SI-1 Pole is that pole, and it revolutionized the industry in 2013.

What our coaches are saying:

UNIVERSITY OF MICHIGAN
ANN ARBOR, MI

"We started using the new Carbon Fiber poles and the team loves them. Great upgrade! Thanks, and GO BLUE!"

Mark Rosen, Head Coach, Women's Volleyball

KALAMAZOO COLLEGE
KALAMAZOO, MI

"I love the lighter weight and the ease of their height adjustment as well. Needless to say, our practices are a joy."

Jeanne Hess, Head Coach, Women's Volleyball

GREEN VALLEY HIGH SCHOOL
HENDERSON, NV

"We LOVE, LOVE, LOVE our new set-up. The Women's Gator Volleyball Program thanks you all for the support."

Erin Hill, Head Coach, Girls' Volleyball

LAFAYETTE CENTRAL CATHOLIC
LAFAYETTE, IN

"Over the last two years, we have been blessed to upgrade our old 60-pound (each) steel poles to Sports Imports' new Carbon Fiber 19-pound (each) poles. This will allow our middle school and high school student athletes to compete with the best products on the market, but more importantly, safely set up and take down our net systems."

Brad McCarter, Head Coach, Girls' Volleyball

QUALITY + BUDGET

- Sets up in 10 minutes or less
- Easy net-height adjustment with the Sports Imports Pin-Stop System
- Clear markings for Men's, Women's and Juniors' - additional holes for training purposes

An affordable, lightweight option to meeting your budget, the AL7 Aluminum Volleyball Pole features an easy-to-set-up pin-stop height adjustment system for consistent and accurate net height.

What our coaches are saying:

SIBLEY EAST HIGH SCHOOL
ARLINGTON, MN

"VB equipment arrived last week, and has already been used a few times ...VERY convenient, and the sleeves and pins measure out perfectly. I can't wait for how easy it will be next season to set up for matches."

Chip Wolverton, Head Coach, Girls' Volleyball

AVAILABLE FOR SITTING VOLLEYBALL

- Sets up in 10 minutes or less
- Easy net-height adjustment with the Sports Imports Pin-Stop System
- Clear markings for Men's and Women's - additional holes for training purposes

In 1976, Sports Imports changed the game with the introduction of the Steel DE11 - the first in-ground net system without dangerous guy wires. It's superior design set the industry standard for quality, strength, performance and durability. As the sport has evolved through the years, so has the design of the DE11 - historically, it remains the most popular pole on the market.

What our coaches are saying:

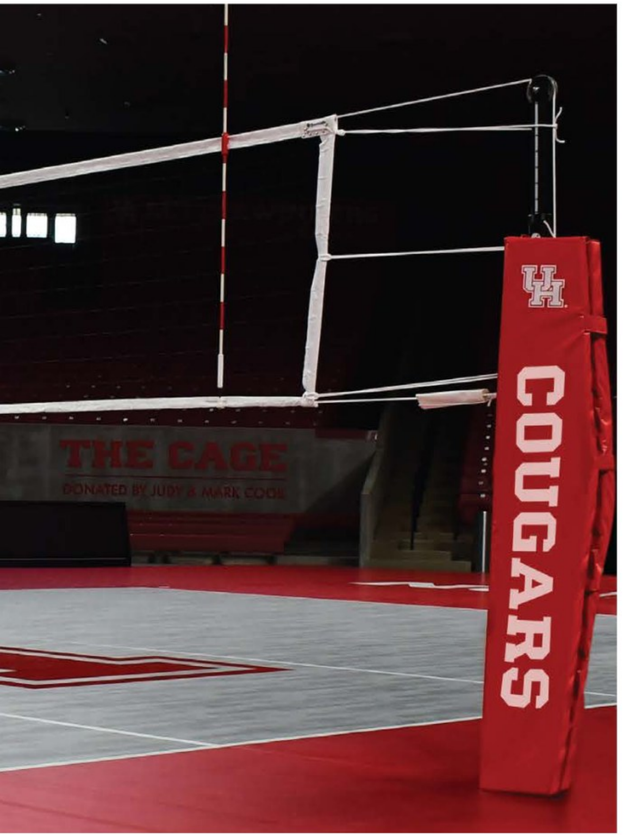

PENN STATE
STATE COLLEGE, PA

"We have used the Sports Imports Volleyball Net System exclusively since we switched to an in-ground system, and I like its reliability and durability."

Russ Rose, Head Women's Volleyball Coach

- Official Stand Wraps for Indoor
- Nets for Beach
- Official Stand Padding for Beach

BEACH POLES

The standard for beach net systems

Sports Imports Beach Net Systems have been at the center of beach volleyball since we installed the first Olympic beach venue in Atlanta in 1996. We set the industry standard for quality, safety, performance and durability in an outdoor system. We are the net system used in the NCAA Beach Championships, the USA Volleyball Training Facility, the Canadian Pan Am Games, plus countless college, high schools, clubs and communities.

What our customers are saying:

NIAGARA SPORT & SOCIAL CLUB
ONTARIO, CANADA

"We love them! Ease of use for staff raising and lowering net heights! Durability and visual appearance gives our participants the quality equipment they deserve to play on! It's worked extremely well for our youth development programs to easily be able to adjust the net heights for all the various different ages. The branding on the pads helps set us up well above any other leagues in the area! It has proved to be an outstanding investment for us!"
